PROSPECTUS OF THE

NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the public.

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same great work.

of any now prosecuting the same great work.

Although mainly devoted to the discussion such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local in terests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements as a means indispensable to the development of the mineral and agricultural resources of the State. These interests of primary importance, shall al-ways command their fullest attention. To this elected and origina literary matter. Being strictly conservative, they propose to avail themselves of all the lights of ex perience, in that progress, which promises the ad ancement of the interests of North Carolina

The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sustained by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense an organization which originates in the popular will, expressed by the people in their primary as-semblies, and which has been so successfully introduced among the democracy of many of the ether States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those whe, by sufferance, have tolerated

ts temporary usurpation. 2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good eld State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance or any other measure inconsistent with the rights States.

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy. 4th. They will advocate all such measures of in ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall protest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inaugu-

OPINIONS OF ATTORNEYS GENERal of the United States.—The undersigned having just published an octavo edition of the official decisions of the Attorneys General of the United States, expounding the Constitution, subsisting Treaties with foreign nations, and the Indian tribes, and giving construction to the public laws of the country, in five volumes, averaging 750 pages each, comprising all the decisions of that character made since the adoption of the federal constitution, and prior to the 4th day of federal constitution, and prior to the 4th day of July, 1851, and to be continued up to the present time, with synoptical notes and copious indices, he respectfully announces his readiness to answer orders for the work, and to forward the same by express, or otherwise, to any part of the United

Being the productions of distinguished jurists and civilians, fully authorized to decide the various questions of civil, common, international, constitutional, commercial, and municipal law which have arisen in the course of the administration of the government, and bearing, as they do, upon nearly every subject of civil polity and jurisdiction, it necessarily follows that they are scarcely inferior in importance to the Constitution which they defend, and the laws which they explain. They not only set forth the political economy and fundamental principles of the federal government, and the rules and regulations enforced in its administration, but they also define the powers and duties, and, in many instances, the mpensation of its civil and military officers The subjects of national sovereignty, neutrality, extradition, &c., are therein thoroughly discussed, and our revenue laws, land laws, patent laws pension laws, &c., commented upon and ex-plained. It is, therefore, believed that public ministers, consuls, governors of States, district attorneys, marshals, collectors of customs, sur veyors of ports, naval officers, receivers of public moneys, registers of land offices, Indian agents, officers of the army and navy, and, indeed, all public men will find these volumes a valuable acisition to their libraries.

INVIGORATING CORDIAL,
Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists. spair. The Elixir deals with disease as it exists. without reference to causes, and will not only remove the disorder itself, but
REBUILD THE BROKEN CONSTITUTION

The derangements of the system, leading to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place terrifying dreams, inability to remain in one place or position, weaking of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Bear in mind that all maladies wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is physical death. Bear in mind, also, that, for every kind of nervous disease he Elixir Cordial is the only reliable preparation

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sick-ness, the unstrung and relaxed organization is at once braced, revivined, and built up. The mental and physical symptoms of nervous disease vanisl together under its influence. Nor is the effec temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its ormal condition. Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sleeplessness, dislike of society,

INVIGORATING CORDIAL.

DIRELY Vegetable in its composition. This invaluable Cordial is extracted from Herbs and Krrts, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of impotency, Hœmorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any canse, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this

weakness from scatters, were time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a ronk medicine is required, it will be found equal if not superior to any compound ever used.

To Females—Henry's in igorating Cordial is one of the most invaluable medicines in the many complaints to which females are subject. It assists nature to brace the whole system, check excesses, and creates renewed health and happiness. Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom and to vigor.

and to vigor.

Young Men.—That solitary practice, so fatal to
the existence of man, and it is the young who are
most apt to become its victims, from an ignorance
of the danger to which they subject themselves, Nervous Debility, weakness of the system, and premature decay. Many of you may now be suffering, misled as to the cause or source of disease. REGULATIONS CONCERNING HACKS
AND HACKMEN.

How To Know who THE HACKMAN IS.—All hacks are required to be licensed, and to have the number of their licenses to be painted in black figures of not less than two inches in depth, on the front and side of each lamp attached to such carriage; or, if there be no lamps, the numbers shall be conspicuously painted on each side of the driver's box.

In case any stranger or other person feels him self aggrieved by any hack-driver, let him obtain the number of the hack. How to reach him with the law is hereafter pointed out.

RATES OF FARE ALLOWED BY LAW.—For each
